DAN ADEJINMI

Lagos, Nigeria | 09054026463 | tolua612@gmail.com
LinkedIn: linkedin.com/in/dan-adejinmi | Portfolio: danthedev.vercel.app

PROFILE

Enthusiastic and diligent, always open to learning and improving. Has basic knowledge in cybersecurity, front-end development, and UI/UX design, with a genuine drive to grow as a Cybersecurity Analyst.

EXPERIENCE

ProvidusUnity Bank

Intern, Risk Management Department | March 2025 – September 2025

- Supported the Risk Management department across market, operational, and IT risk functions.

PROJECTS

PhishGuard – Phishing Detection Browser Extension

Final Year Project

- Built a browser extension that detects phishing websites in real time using a Random Forest machine learning model combined with a heuristic rule engine.
- Integrated the VirusTotal API to cross-check URL reputation and strengthen detection accuracy.
- Trained and evaluated the detection model on a combined dataset of roughly 236,000 URLs (PhiUSIIL + OpenPhish).

Transportation App Interface

School Project

- Designed a personal transportation app interface in Figma, focusing on usability and visual design.

EDUCATION

Bells University of Technology, Ota, Nigeria

B.Tech Computer Science | 2021 – 2026

Faith Foundation Model College

Senior Secondary School Certificate | 2017 – 2020

TRAINING AND CERTIFICATION

GMCPN Member, Computer Professionals Registration Council of Nigeria — November 2026
